ABOUT US:

Sheetal Trading Company was incorporated in the year 2012. Our vision is to create natural and assorted mouth fresheners and become the leading producer of Indian traditional mouth fresheners of the country. Avedana is the flagship brand under the Sheetal Trading Company umbrella. Avedana was introduced as the brand that produces an assortment of tasty, natural and mouth-watering mukhwas specially created in a preserved environment to linger your taste buds with a tinge of freshness. We like to believe that mukhwas being an integral part of our Indian meals, it is our duty to produce it with the highest quality and standards. Some offer digestive power, some offer freshness, and some tickle your taste buds. Extreme care is taken to preserve the original ingredients to ensure only the best reaches our consumers.

QUALITY CONTROL:

Quality is something that comes to us naturally. We take extreme care of our product quality through meeting international standards for quality control right from the production cycle to packaging and the final delivery. Our facility is divided into different segments for production, storage, packaging, and offices to maintain the sanctity. We choose high-grade ingredients from selective marketplaces and facilities to maintain our quality standards. We maintain the highest standards in cleanliness at our facilities using the modern manufacturing facilities to ensure quality focus on all aspects of the production cycle. We believe taste is all about 3S- Sweet, Salty and Sour. So we ensure just the right mix with our unique blending technique and our mukhwas are prepared by some of the most experienced hands in this business that have the ability to deliver great results through their craft skills. We want to be there for you when you need us the most- at your home after a heavy Sunday lunch or dinner, at your office sharing a laugh with your colleagues, at a party when your friends have come to celebrate your success, at a wedding when you have invited the most important people to celebrate your togetherness.

We will take care of all the emotions through the assortment of our tasty mouth fresheners.
